REQUEST FOR TRADING HALT – DRILLING UPDATE

The Board of Botswana Metals Limited has requested a trading halt pending the release of significant results from the current resource infill and step-out drilling program at Maibele North in Botswana.

Reason for Trading Halt:

The Company requires adequate time to prepare a detailed report on these positive events so as to fully inform the market and the report will be released to the ASX before the opening of trading on 15 October 2015.

The Company sees no reason why the trading halt request should not be granted.
